

Overview of Wetland Regulations

Anna Schoonover, FTN Associates LTD

This presentation will cover a brief overview of Laws/Regulations for Waters of the US, including wetlands. Topics to be discussed include: when it is necessary to have a permit, when to call for assistance, what to do if you have already begun work in a jurisdictional area without a permit and Best Advice: PLAN AHEAD.

Anna received her Undergraduate Degree in Chemistry from Millsaps College. She went on to obtain a Masters Degree in Biological Sciences from the University of New Orleans. She returned to Mississippi to work for Mississippi Department of Environmental Quality, Office of Pollution Control where she worked in the Water Quality Branch reviewing water quality applications associated with Section 404 and 10 permits in the state. After a couple of years with the State she worked with the Vicksburg District Corps of Engineers, Regulatory Branch (COE) where she was a Senior Environmental Specialist evaluating Section 404/10 projects. After 14 years with the COE she formed her own company, Solutions, Inc., and served as the President of that firm until the fall of 2009. At that time, she merged her company with FTN Associates LTD where she now lends her expertise in the Regulatory field.
