

Lagoon Rejuvenation: Reducing Power While Improving Treatment (Part 1)
John Hinde, Air Diffusion Systems

John Hinde is currently President of Air Diffusion Systems. Over the course of 40+ years John Hinde has been involved with designing and selling approximately 1,000 Wastewater and several thousand Clean Water systems. Annual sales exceed one million dollars per year for the last 10 years.

John Hinde has been a guest speaker for dozens of State and Federal Wastewater Agencies speaking on “The Aerated High Performance Aerated Lagoon Process: Design, Manufacture, Submittal, Installation and Operation of Lagoon Systems.” This year John has spoken at six Wastewater seminars in the USA. He is a member of: AWWA, WEF, and Rural Water Association. On the average John Hinde designs over 100 water or wastewater systems per year.

He is married and the father of two sons, 23 and 27 years old. Both sons are studying Environmental Engineering and work for ADS. Linda Hinde, wife, is the accountant and general manger of ADS.
